COMPLIANCE AUDITS

Clean Earth Solutions is proud to offer what we consider to be one of the most valuable services in the fueling industry today; **Compliance Audits.....**

Environmental compliance audits by *Clean Earth Solutions* provide a wealth of information to the customer, be it a single station owner, a large retail fueling company, or a lending institution. These audits can be customized to individual needs, and assure that all facets of environmental regulations are identified, met, and properly reported in various formats. *Clean Earth Solutions* maintains certifications with Tank Testing, Line Testing, Leak Detector Testing equipment, State and Federal certifications, as well as Department of Agriculture and N.A.C.E.

Basic items that are conducted in most audits include;

- ▶ All underground storage tank information.
- ▶ All submersible pump, piping, and dispenser information.
- ▶ Current leak detection inspection / verification.
- ▶ Spill and overfill equipment inspection / verification.
- ▶ Other electronic system inspection / verification.

Optional services may also include;

- ▶ ATG inspection / verification.
- ▶ Cathodic protection system inspection / verification.
- ▶ Dispenser inspection / calibration.
- ▶ Line testing, leak detector testing, and stage II vapor testing.
- ▶ Compilation of regulatory forms, and other legal documents.
- ▶ Data archival, digital pictures, and many other services are available.
